

# REVIVE

## B4KIDS :: EASTER TOGETHER

### EXPLORE :: RESURRECTION EGGS

Resurrection Eggs are a creative way to extend learning and channel curiosity around the Easter story. Consider using Resurrection Eggs as a countdown, opening one each day leading up to Easter to explore the story. You can also use Resurrection Eggs as part of an Easter Egg Hunt, reviewing all the contents once all of the eggs have been found.

---

### CREATE :: EASTER CRAFT

Crafts are a fun way to review the Easter story. Create a visual reminder of what happened on the first Easter by getting out your craft supplies!

### CONNECT :: BRUNCH

Food is a natural way to bring your family together. Make a special brunch, inviting your kids to help pick the menu or bake right along with you! Choose recipes that are special and unique to this day, without having to worry about how long they will take to make. As you spend time around the table with your kids, consider having everyone share why Easter is special to them!

---

### IMAGINE :: EASTER PLAY

Plays are a fun way to keep the focus on Jesus, while facilitating biblical application through reenactment. Encourage your kids to plan an Easter play, using materials in your house as props. Include extended family members and friends by inviting them to your performance using Zoom, FaceTime, or your video call of choice!

---

### REFLECT :: SHARE FAVORITES

Sharing as a family is a great way for everyone to reflect on your special day. Take turns sharing your most favorite part of the day. Discuss which traditions you started that you'd like to continue every Easter moving forward.

---

### PLAY :: BUILD OR SEARCH

Work together as a family to recreate or uncover elements of the Easter story. Give your kids a choice of either building a Lego scene or going on an Easter scavenger hunt. Whether you're building a scene out of blocks or searching for items in your house, be sure to include things such as a rock to represent the tomb or nails to represent the cross.

### MOVE :: WORSHIP

Dancing and singing are wonderful ways to celebrate Jesus' resurrection! As part of your Church At Home experience, watch the videos we have provided on our YouTube and Spotify playlists.

---
